OUR STORY

In 2011, our now owner & the landlord of the industrial estate we occupy leased several warehouse units to businesses.

With a tenant struggling with the logistics aspects of his business and on the brink of leaving the estate, Bray Solutions was formed to take on that side of his business.

Those discussions have led us from **1 warehouse to over 30** in just over a decade.

WHO WE'VE HELPED

“

Without Bray's innovation and flexibility, we would not have been able to fulfil the requests we have had over the last few months. We can't fault their ability to come up with solutions to ensure that our business satisfies our customer's demands. Their hands-on approach means they are an integral part of our team, and we highly recommend them to anyone that is looking for a 3PL partner.”
